

Table of Contents

Preface

Chapter 1: Functional Materials

Comprehensive Analysis of Heat-Treated Lithium Metal: Surface Characteristics and Evolution of the Solid Electrolyte Interphase

S.K. Jeong 3

Photoluminescence Study of Europium-Doped ZnO Nanostructures

E.V. Hernández, F.M. Hernández, Y.A. Trigueros Pérez and G.H. Cortez 11

Chapter 2: Construction Materials and Technologies

Investigating the Effect of Utilizing a Sustainable Stabilizer as a Partial Replacement of Cement on Soil Compressibility and Permeability

A.R. Al-Adhadh, N.N. Nik Daud, B. Yusuf and A.H. Al-Rkaby 19

Study on Mechanical Behavior of Concrete by Temperature and Steel Fiber Content

X.C. Zhao, X.P. Wang, H.X. Yu and S.N. Kovshar 27

Chapter 3: Sustainable Approaches in the Development of Urban Drainage Systems

Exploring Environmental Sustainability Research Using Experimental Methods -Taking the Vegetated Swales Facility

F.M. Chang and Y.P. Wu 37

The Concept of Optimizing the Environment and Moving towards Sustainable Development Goals with Green Infrastructure

F.M. Chang 43

Laboratory Evaluation of Load-Bearing Behavior and Drainage Ability of Pervious Concrete Pavement

T.K. Lam, D.T. Nguyen, V.A. Ngo, H.P.D. Ninh and T.P. Huynh 49
