

Table of Contents

Preface

Chapter 1: Preparation, Characterization, and Performance of Composite Materials

Mechanical Properties of Cast ABS Composites Reinforced with Polymer-Derived SiCNO Ceramic Powder L.H. Hu and P.J. Pan	3
Hardness and Flexural Performance Analysis of Hybridized Coir and Tiger Grass Fiber Composites I.J.C. Panis and J.D. Lopena	9
An Analysis of Binder Decomposition and its Inhibitory Effects on the Sintering of Lattice Structured Ti6Al4V-Polyamide 12 Composites L.M.P. Cagujas, A.K.L. Dumduman, A.K.M. Collera, J.L.G. Untalasco, A.A.C. Aquiro, M.C.O. Que and M.T. Margarito	15
Flexural Properties and Hardness of Unidirectional Tiger Grass Fiber and Coconut Leaf Midrib Reinforced Epoxy Resin Composites J.D. Lopena and I.J.C. Panis	23
Cross-Linked Epoxidized Natural Rubber (ENR) from Reused Palm Oil N. Srirachya and M. Opamawutthikul	29
Numerical Analysis of Stretching Behavior of Polyvinylidene Fluoride (PVDF) Thin Film Laminate S. Nazim, M.M. Nauman, M. Mehdi, M.U. Khalid, A. Iqbal, K. Ali, M. Abid and J.H. Zaini	35

Chapter 2: Synthesis and Properties of Nanocomposites for Photocatalytic Applications

Fabrication of Microcrystalline Cellulose/Nano-TiO Composite: Photocatalytic Performance and the Role of Active Species Z.A.M. Hir, N.N.A.S. Rosli, M.A.A.M. Mahadi, S. Daud, H.A. Rafaie and M. Chijioke- Okere	43
Synthesis and Application of nZVI Supported on Granular Activated Carbon (nZVI/GAC) Catalyst for the Degradation of Paraquat in Wastewater P. Assawasaengrat, W. Narkruga, J. Lamlert, C. Tutiyaakul and P. Sriprom	49
Synthesis of Graphene Oxide/Titanium Dioxide Nanocomposites with Varying Graphene Oxide Contents: Morphological and Optical Band Gap Analysis A. Aeimphu, J. Amonkosolpan, W. Boonyaratgalin, N. Supanam and C. Wongwanitwattana	55

Chapter 3: Functional and Special Materials

Observation of the Effect of Periodic Vibration on the Phase Transition of VO₂ Thin Film S. Azad, D. Gajula, M.H. Prio and G. Koley	65
Dual Solutions and Temporal Stability of MHD AlO–Cu/Water Hybrid Nanofluid Flow over a Bidirectional Shrinking Sheet in a Porous Medium A.R. Mohd Kasim, S.M.H. Mohd Kanafiah, A.T. Adeosun, N.A.N. Ariffin and N.A. Zainal	71
Revisiting the Viscoelastic Theory of Superionic Conductor Ag_{2+δ}Se and its Implication to Thermoelectric Materials M. Aniya	79

Chapter 4: Microstructure and Performance of Advanced Construction Materials

Thermal Induced Microstructural Changes in Calcined Bauxite-Enhanced Ultra-High Performance Concrete N.N. Vinh, P.H. Hoa, N.X. Thanh, P.H. Ngoc and Q.V. Vu	87
From Macroscopic Performance Enhancement to Microscopic Mechanisms: Microstructural Explanation of Strength Improvement in Allophane Nano-Modified Asphalt Mixtures E.H. Jiménez, L.M. Delgado, E. Palacio, W. Rivera, J. Villalba and A.M. Debut	93
Composite Material Based on Gold Mine Tailings and Metakaolin Produced through Geopolymerization L. Zúñiga Torres, F. Hernández-Olivares, A. Zúñiga-Suárez, B. Zúñiga-Torres and J. Patiño	103

Chapter 5: Advanced Processing Technologies and Technological Equipment

Optimization Studies on Machining of Boron Nitride Reinforced with Al Hybrid Composite in WEDM Process Using Taguchi – Dear Based Optimization M. Palanivendhan and T. Muthuramalingam	111
Design and Manufacturing of Defect-Free Pump Casings: A Numerical and Experimental Approach N.D. Khoa, T.B.T. Nam and P.Q. Trung	117
Development and Validation of a Cost-Effective Rotary Friction Welding Machine by Repurposing a J23 Mechanical Press Frame N.D. Khoa, P.Q. Trung and D.D. Khoa	123
