

Table of Contents

Preface

Chapter 1: Tools

| | |
|--|----|
| Influence of Tool Wear on the Load-Bearing Capacity of Shear-Clinched Joints | |
| S. Wiesenmayer and M. Merklein | 3 |
| Investigation on the Wear Behavior of Coatings for Lubricant-Free Deep Drawing Processes with a Novel Application-Oriented Test Rig | |
| J. Henneberg and M. Merklein | 11 |
| PVD Coated Tools and Surface-Structured Workpieces in Dry Cold Forming of Steel | |
| K. Bobzin, T. Brögelmann, N.C. Kruppe, T. Bergs, P. Mattfeld, D. Trauth, R. Hild and D.C. Hoffmann | 19 |
| Wear Behaviour of Coated Cemented Carbide Inserts in an Oxygen-Free Atmosphere when Machining Ti-6Al-4V | |
| B. Denkena, M.A. Dittrich, A. Krödel, S. Worpenberg, J. Matthies and F. Schaper | 28 |

Chapter 2: Properties

| | |
|---|----|
| Fatigue Strength and Wear Behavior of NCD and MLD Diamond Coatings Characterized by Different Level of Residual Stresses after Annealing | |
| G. Skordaris, T. Kotsanis, A. Boumpakis and F. Stergioudi | 39 |
| Determination of Strain Rate Depended Stress and Strain Fields in PVD Coatings on Cemented Carbide Inserts during the Repetitive Impact Test | |
| A. Bouzakis, G. Skordaris, K.D. Bouzakis, M.G. Gökcen, A. Boumpakis, A. Batuk, S. Sisman and S.A. Serbes | 45 |
| Correlation between Coating Properties and Thermal Load of CrAlN-Coated Cutting Tools during Machining of AISI4140 | |
| B. Breidenstein, B. Denkena, A. Heckemeyer and S. Beblein | 53 |
| Residual Stress Measurements in PVD Coatings of Carbide Cutting Tools Directly in the Cutting Edge | |
| B. Breidenstein, N. Vogel, M. Dietrich, H. Behrens and J.M. Andersson | 61 |
| Wear Resistance of Hard Particle Reinforced Copper Alloys Generated by Laser Melt Injection | |
| P. Warnecke and T. Seefeld | 68 |
| Designing Amorphous Carbon Coatings Using Numerical and Experimental Methods within a Multi-Scale Approach | |
| S. Tremmel, M. Marian, B. Rothammer, T. Weikert and S. Wartzack | 77 |
| Surface Modification of Aluminium Alloy by a Silver Nanoparticle-Doped Coating and Examination of Anticorrosion Protection | |
| A. Prospathopoulos, E. Pavlidou and N. Michailidis | 85 |

Chapter 3: Tribology

| | |
|---|-----|
| Applicability of Solid Lubricant Coatings in Cold Rod Extrusion of Stainless Steels | |
| A. Jobst and M. Merklein | 95 |
| Wear and Fatigue Behavior of PVD and MTCVD TiCN Coated Cemented Carbide Inserts in Turning Cast Iron | |
| G. Skordaris, K.D. Bouzakis, F. Stergioudi, S. Kouparanis, A. Boumpakis and A. Bouzakis | 101 |
| Self-Lubricating PVD Hard Coatings through Tribological Activation | |
| K. Bobzin, T. Brögelmann, N.C. Kruppe and N. Stachowski | 109 |
| Laser Implantation of Niobium and Titanium-Based Particles on Hot Working Tool Surfaces for Improving the Tribological Performance within Hot Stamping | |
| S. Schirdewahn, F. Spranger, K. Hilgenberg and M. Merklein | 117 |

| | |
|---|-----|
| Analysis of the Modification of Tool Surfaces by Abrasive Blasting and Laser Polishing | 124 |
| T. Wild, M. Bestenlehrer and M. Merklein | |
| Test Method for Friction Characterization of Rivets | 132 |
| S. Wituschek, C.M. Kuball, M. Merklein and M. Lechner | |
| Temperature Measurement on Tool Surfaces by Wear Resistant PVD Sensor Coatings | 138 |
| K. Bobzin, T. Brögelmann, N.C. Kruppe and J. Janowitz | |
