

Table of Contents

Preface

Chapter 1: Materials Science

A Benchtop X-Ray Diffractometer as a Tool for Thin Film Characterization M. Rzheutski, V. Cherkesov, D. Kabanau, E. Lutsenko and L. Bui	3
Enhanced Cr(VI) Reduction Efficiency Using Clay Support and Hydrothermally Synthesized LTA Zeolite Composite Membrane A. El-Kordy, A. Elgamouz, E.M. Lemdek, A.N. Kawde and N. Tijani	11

Chapter 2: Manufacturing Technologies

Dynamic Testing of Friction Stir Processed Aluminum-5052 M.Y. Mohamed, I. Al Daour, M. Alkhader, B. Darras, W. Abuzaid and M. Nazzal	21
Hybrid Intelligent-Assisted Approach for Process Parameters Optimization to Enhance the Sustainable Manufacturing of Thermoplastic Laminates K. Kadri, B. Ali, M.A. Jaradat, M. Alkhader and W. Abuzaid	31

Chapter 3: Building Materials

Performance of Cement Mortar Mixtures Containing Fine Aggregate and Admixtures M.A. Alarab, S.A. Alattieh, W. Zeiada, G.G. Al-Khateeb, S. Al-Toubat and F. Abdulla	45
Construction Innovation - Graphene Oxide as the Differentiating Nanoadditive for Concrete and Coatings D. Hernández-Sánchez, M. Navarro-Rosales, A. Sala-Arceo, A. Miramontes-Ortega and E. Priego-Mondragón	57
Effect of Zycotherm Nano-Based Warm Mix Additive on the Properties of Asphalt Binders in the UAE E.H. Nasr, A. Sukkari, G.G. Al-Khateeb, W. Zeiada, M.W. Alani and H. Ezzat	77
Investigation of NWC and Structural LWC Using Local Material in the UAE Exposed to Elevated Temperatures H. Alharmoodi, R. Hawileh, A. Hajjaj, A. Aljarwan and J.A. Abdallah	87
Impact of High-Density Polyethylene Recycled from Waste Milk Bottles on Asphalt Binder's Performance under UAE's Climate Conditions O.F.S. Abushaban, K. Alraini, W. Zeiada, G.G. Al-Khateeb and H. Ezzat	97

Chapter 4: Structural Engineering

Bond Slip Behavior for CFRP-to-Concrete Joints at Room Temperature A. Salameh, R. Hawileh, M. Assad and J.A. Abdallah	109
Numerical Investigation on Improving Shear Strength of RC Beams with Various Web Opening Shapes Using Pre-Stressed Fe-SMA Bars A.M. Khalil, M. Elkafrawy, R. Hawileh and M. Al-Hamaydeh	119
Effect of Slenderness Ratio on the Behavior of RC Bearing Walls under Fire Exposure M. Assad, R. Hawileh, G. Karaki and J.A. Abdallah	129
Bending and Shear Response of Perturbated Honeycomb Lattices O. Al-Osman, M. Alkhader and W. Abuzaid	139
Effect of Concrete Compressive Strength on the Bond Performance of Flexural Prisms Externally Strengthened with CFRP Laminates P. Gowrishankar, R. Hawileh and J.A. Abdallah	149

Chapter 5: Machine Designing

Applying FEA and MBD Analysis for a Racing Car Conversion

J. Rishmany, M. Choucair and C. Lahoud

159

Design and Topological Optimization of a Wheel Upright Using Finite Element Analysis

A.S. Eltanany, A.T. Hamada, K. Kadri, O. Al Hussaini and M. Alkhader

169

Chapter 6: Energy Management

Simulation and Economic Analysis of a Mobilized Thermal Energy Storage System for Mediterranean Climate Buildings: Case Study

J. Rishmany, C. Lahoud, R. Imad and M. Daaboul

181
