

Table of Contents

Preface

Chapter 1: Polymers and Composites

Mechanical Properties of PETG Parts Produced by the FFF Method with Different Infill Geometries

M. Kohutiar, R. Janík, I. Labaj, L. Kakošová, M. Krbat'a, P. Mikuš and L. Bartošová 3

Dynamic-Mechanical Analysis of Selected Composite Materials

L. Bartošová, M. Kohutiar and M. Jus 13

Chapter 2: Structural Metals

Comparative Analysis of Metal Components Manufactured by WAAM Technology for the Strike Face Layer of Ballistic Protection

J. Viliš, Z. Pokorný, J. Zouhar, R. Vítek and T. Fornůsek 27

Experimental Study of the Effect of Changing the Shape of Tool Geometry on the Magnitude of Cutting Forces when Turning Tool Steels

H. Chochlíková, J. Escherová, J. Majerík and J. Majerský 37

Simulation and Experimental Validation of Orbital Laser Welding of Aluminum Alloy Tubes

K. Łysiak, M. Marciniak, T. Galek and M. Tupaj 49

Experimental Comparison of 90MnCrV8 and X153CrMoV12 Steels in MN Knife Mill for Wear Reduction

M. Krbat'a, M. Kohutiar, J. Escherová, M. Bilka, L. Timárová, P. Klučiar, R. Janík and J. Macháček 61

Chapter 3: Surface Treatment and Tribology

Experimental Comparison of the Material Properties of Original and Aftermarket Gears

P. Mikuš, A. Breznická, L. Timárová and M. Jus 75

Mathematical Model of Friction

M. Jus and L. Bartošová 83

Increasing the Corrosion Resistance of Structural Steels Using Plasma Nitriding

L. Timárová, A. Breznická, P. Mikuš and M. Jus 91

Examination of the Internal Surface of a Firing Chamber of Armament Elements

A. Trytek, M. Marciniak, T. Galek, K. Łysiak, M.J. Surowaniec and J. Czaja 101

Use of Integral Characteristics in the Evaluation of Surface Texture of Components after Plasma Nitriding

D. Dobrocký, Z. Študený, J. Procházka, Z. Pokorný and J. Viliš 115

Research on the Characteristics of Steels Essential for Increasing the Durability of Selected Special Equipment Structures

M. Polášek, J. Pokluda, J. Maryáš, J. Escherová, P. Mikuš, M. Kohutiar and M. Jus 129

Exploring the Influence of Variations in Distance Levels to Dielectric Barrier Discharge Plasma on Surface Energy and Fluorescence Modifications in Shape-Stable Aluminum Alloys and Shape-Instable Unvulcanized Rubber Blends

R. Janík, S. Durišová, I. Papučová, P. Skalková, M. Krbat'a, M. Kohutiar, S. Lokšíková, O. Novosádová and K. Moricová 139

Tribological Analysis of Manganese Phosphate Coating on Steel Pistons for Internal Combustion Engines

P. Żurawski and A. Trytek 155

Degradation of Hydraulic Oil in Operating Conditions

L. Hujo and B. Kopiláková 173

Effect of Frequency on Selected Properties of Wc HiPIMS Coatings Deposited Using a Mixture of Ar+Kr as Working Gas D. Kottfer and P. Klučiar	181
Monitoring the Soft Sludge and Water Content of Hydraulic Oil Samples Using Drop Analysis A. Breznická, P. Mikuš, E. Timárová and M. Jus	189
The Influence of Heat Treatment of High-Strength Steels on the Change of Tribological Properties by the Ball on Flat Method J. Escherová, M. Krbat'a, P. Klučiar, M. Jus, H. Chochlíková, K. Daniel and M. Polášek	201

Chapter 4: Research and Design of Machine Parts and Equipment

Design and Optimization of the Front Wing for Formula Student Monopost M. Krbat'a, J.J. Fekiač, M. Kohutiar, M. Malý and P. Mikuš	215
Design and Simulation of Selected Types of Materials for Military Silencers for Various Types of Handguns M. Bilka, M. Krbat'a, M. Eckert, M. Polášek and M. Kohutiar	227
Modification of Components Using Generative Design Tools P. Gabštur, M. Pollák, M. Kočiško and J. Kaščák	237
Method of Heat Sinks Testing Based on Cooling Curves L. Dobsakova, B. Zanolini and V. Horák	253

Chapter 5: Mechatronics

Operational and Laboratory Tests of Flow Measurement of Gear Hydrogenerator B. Kopiláková, E. Hujo and M. Jus	265
The Main Problems in the Operation of Ramming Devices in Artillery Weapons J. Balla and B. Kopiláková	277
Development and Implementation of Equipment for Diagnosing and Testing the Properties of 3D Printing Samples M. Eckert, P. Fabo, M. Kuba and P. Jancich	293
Integrating VR and AR into Computer-Aided Manufacturing: A Framework for University-Level Engineering Education J. Kaščák, M. Kočiško, M. Pollák and P. Gabštur	303
