

Table of Contents

Preface

Porous Alumina Processing Using the Direct Foaming Technique Based on Slurry Boiling	1
K. Somton, M. Rodchom, P. Laoratanakul and R.C. McCuiston	
Analyzing the Performance of Ceramic Kiln by Using Thermal Image Technique for Reducing Energy Costs	7
S. Lawanwadeekul and M. Bunma	
Micromorphology of Porosity Related to Electrical Resistance of Dental Luting Cements	13
M. Sriyudthsak, Y. Kosaiyakanon, F.P. Luen, K. Wattanasirmkit and V. Srimaneepong	
Preparation of Carbon Fiber Reinforced Metakaolin Based-Geopolymer Foams	19
J.H. Lee, S. Wattanasiriwech and D. Wattanasiriwech	
The Effect of Decolorizing Agent on the Optical Properties of High Iron Contents Soda-Lime Silicate Glass	28
E. Meechoowas, B. Petchareanmongkol, P. Jampeerung and K. Tapasa	
Effect of Molten Salts on Synthesis and Upconversion Luminescence of Ytterbium and Thulium-Doped Alkaline Yttrium Fluorides	34
T. Pornpatdetaudom and K. Serivalsatit	
Designing Technique Transfer of Dan Kwian Pottery Products	40
C. Yeenang and O. Kamon In	
The Development of Dan-Kwian Ceramic Jewelry for Contemporary Aesthetics in Nakhon Ratchasima Province	44
K. Duangkhachon and O. Kamon In	
The Utility of Rice Husk Ash from Biomass Power Plant of Nakhon Ratchasima Province for Synthesis of Nano-Silica for Using Cathode Material of Lithium Ion Battery	51
O. Kamon In, S. Srilomsak and N. Meethong	
Study of Thermal Property of Glass-Ceramics Produced from Soda Lime Glass Waste by Single-Step Sintering Process	58
N. Kulrat, D. Bootkul, S. Dangtip and S. Intarasiri	
The Adsorption of Cadmium Ions on Fly Ash Based Geopolymer Particles	65
S. Onutai, T. Kobayashi, P. Thavorniti and S. Jiemsirilers	
Effect of Peptizing Agent Concentration on Morphology of Unsupported Alumina Membrane	71
N. Thongdee, S. Watcharamaisakul and B. Golman	
Fracture Energy and Fracture Toughness of <i>In Situ</i> Calcium Hexaluminate (CA6)-Alumina Monolithic Refractory	77
J. Khajornboon, K. Washijima and T. Shiono	
Biomimetically Co-Deposition of Bovine Serum Albumin and Calcium Phosphate on 3D Printed Hydroxyapatite: Influence of Time, Temperature and Concentration	83
F. Thammarakcharoen and J. Suwanprateeb	
Radiation Shielding Properties of BaO-ZnO-B₂O₃ Glass for X-Ray Room	88
S. Sarachai, N. Chanthima, N.W. Sangwaranatee, S. Kothan, S. Kaewjaeng, M. Tungjai, M. Djamal and J. Kaewkhao	
Properties Alteration of Anti-Tuberculosis Drugs Loaded 3D Printed Hydroxyapatite by Polycaprolactone Coating	94
W. Suvannapruk and J. Suwanprateeb	
Non-Proportionality and Scintillation Properties of YAG:Ce Scintillator by Compton Coincidence Technique	99
W. Chaiphaksa, N. Sangwaranatee, P. Limkitjaroenporn, H.J. Kim and J. Kaewkhao	
Preparation of Consolidated Body Zeolite from Rice Husk Ash	105
M. Takahashi, K. Shibata and T. Shiono	
Synthesis of Zeolite from Water Treatment Sludge and its Application to the Removal of Brilliant Green	111
K. Gomonsirisuk, K. Yotyiamkrae, M. Prajuabsuk, S. Lumlong, P. Kamsri, P. Pungpo and P. Thavorniti	

A Study of Mechanical Properties of Bone Cement Containing Micro- and Nano-Hydroxyapatite Particles	117
P. Sriprapha, C. Rungsiyakull, K. Pengpat, T. Tunkasiri and S. Eitssayeam	
Effect of Eu³⁺ Ions on the Physical, Optical and Luminescence Properties of Aluminium Phosphate Glasses	122
N. Chanthima, Y. Tariwong, H.J. Kim, J. Kaewkhao and N. Sangwaranatee	
Preparation of Near-Infrared (NIR) Reflective Pigment by Solid State Reaction between Fe₂O₃ and Al₂O₃	127
C. Busabok, W. Khongwong, P. Somwongsa, P. Ngernchuklin, A. Saensing and S. Kanchanasutha	
Comparison of the Properties of Glasses Made from Two Different Bottom Ashes	133
W. Nonthathi, C. Auechalitanukul and R.C. McCuiston	
Feasibility of Producing Glass-Ceramics from a Mixture of Glass Cullet-Eggshell and Perlite	139
P. Nakkam and N. Chantaramee	
Effect of the Addition of ZrSiO₄ on Alkali-Resistance and Liquidus Temperature of Basaltic Glass	145
N. Vaiborisut, C. Chunwises, D. Boonbundit, S. Jiemsirilers and A. Theerapapvisetpong	
Crystallization Kinetics and Heat Treatment Temperature on Microstructure of Na₂O-CaO-P₂O₅-TiO₂ Glass System	151
P. Intawin, S. Eitssayeam, G. Rujijanagul, T. Tunkasiri and K. Pengpat	
Compressive Strength and Setting Time Modification of Class C Fly Ash-Based Geopolymer Partially Replaced with Kaolin and Metakaolin	157
K. Hemra, S. Yamaguchi, T. Kobayashi, P. Aungkavattana and S. Jiemsirilers	
Mechanical Properties and Microstructure of Li₂O-SiO₂-P₂O₅-Al₂O₃-K₂O-CaO Glass-Ceramics	164
M. Kamnoy, U. Intatha, A. Munpakdee, S. Eitssayeam and T. Tunkasiri	
Evaluation of Thermal Shock Resistance for Ceramic Materials by Young's Modulus	170
J. Arikawa and T. Shiono	
Phase Formation and Grain Growth of BSCZT Ceramics Prepared by BST-BZT Seed Induced Method	175
J. Dangsak, S. Eitssayeam, D.R. Sweatman and U. Intatha	
Preparation and Characterization of Lead-Free (Ba_{0.4}Sr_{0.4}Ca_{0.2})(Zr_{0.05}Ti_{0.95})O₃ Ceramics Using BST Seed Induced Method	180
J. Dangsak, S. Eitssayeam, T. Tunkasiri and U. Intatha	
Luminescence Property of Silicate Phosphor, Ba₉Sc₂Si₆O₂₄:Ce, Synthesized by Melt Quenching Technique	186
K. Toda, A. Tsuura, M. Katsu, S. Kamei, T. Ishigaki, K. Uematsu and M. Sato	
Effects of Sn Concentration on Chemical Composition, Microstructure and Photocatalytic Activity of Nanoparticulate Sn-Doped TiO₂ Powders Synthesized by Solution Combustion Technique	191
O. Jongprateep, K. Meesombad, R. Techapiesancharoenkij, K. Surawathanawises and R. Munprom	
Microstructures and Dielectric Constants of Ba_{0.05}Sr_xCa_{0.95-x}TiO₃ (x=0, 0.225, 0.475, 0.725 and 0.95) Synthesized by the Solution Combustion Technique	197
O. Jongprateep, N. Sato, S. Boonsalee and J.H. Pee	
Synthesis and Characterization of Cu-Doped SnO₂ Thin Films by Aerosol Pyrolysis Technique for Gas Sensor Application	205
S.T. Khlayboonme and W. Thowladda	
Upgrading of Waste Gypsum for Building Materials	211
P. Ngernchuklin, N. Yongpraderm, A. Boonruang, S. Kanchanasutha, P. Laoauyporn and C. Busabok	
Characterization of Fe₂O₃ Nanowires and its Solar Cell Applications	217
S. Daothong	
The Optimal Ratio of Mixed Talc Silica and Narathiwat Clay for Cordierite-Mullite Refractories	223
N. Ariyajinno and S. Thiansem	
Microwave Synthesis of Nanocrystalline Hydroxyapatite and the Application in Bio-Composite	228
P. Sooksaen, K. Mekmork, T. Limprajuablarp and S. Kuharuangrong	

Effects of Eu Doping and Calcination Temperatures on Chemical Compositions, Microstructure and Luminescent Intensity of BaAl₂O₄ O. Jongprateep and K. Chunwijitra	233
Comparison of Dolomite Clay and Cullet Addition on Physical and Mechanical Properties of Clay Bricks R. Kantajan and S. Mulinta	241
A Novel Radiation Shielding Material for Gamma-Ray: The Development of Lutetium Lithium Borate Glasses P. Glumglomchit, J. Rajagukguk, J. Kaewkhao and K. Kirdsiri	246
Feasibility Study of Using Basalt Fibers as the Reinforcement Phase in Fiber-Cement Products P. Chakartnarodom, W. Prakaypan, P. Ineure, N. Kongkajun and N. Chuankrerkkul	252
Dielectric Properties and Microstructural Studies of Er₂O₃ Doped Potassium Sodium Niobate Silicate Glass-Ceramics P. Yongsiri, W. Senanon, P. Intawin and K. Pengpat	258
Influence of Lignite Bottom Ash on Pyroplastic Deformation of Stoneware Ceramic Tiles T. Prasartseree, T. Wasanapiarnpong, C. Mongkolkachit and N. Jiraborvornpongsa	264
Preparation of Porous Cylindrical Tubes Substrates from Zeolite and Clay for TiO₂ Photocatalyst Coating N. Nawaukkaratharnant, T. Wasanapiarnpong, C. Mongkolkachit and T. Pornphatdetaudom	270
Fabrication and Characterization of Low Thermal Expansion Cordierite/Spodumene/Mullite Composite Ceramic for Cookware P. Junlar, T. Wasanapiarnpong, L. Punsukmtana and N. Jiraborvornpongsa	276
Synthesis of Spinel Color Pigments from Aluminum Dross Waste N. Yongvanich, B. Emtip, B. Hengprayoon and E. Jankat	282
Enhancing the Phase Conversion of Hydroxyapatite from Calcium Sulphate Hemihydrate by Hydrothermal Reaction N. Pewkeaw, J. Suwanprateeb and D.P. Kashima	288
Development of Thai Lignite Fly Ash and Metakaolin for Pervious Geopolymer Concrete S. Sutikulsombat, T. Srichumpong, P. Boonanunwong, C. Tippayasam, C. Leonelli, P. Chindaprasirt and D. Chaysawan	294
Effect of Aluminum Hydroxide Addition on Properties of Fired Refractory Clay Brick S. Nilpairach, A. Watchaikun, K. Panyawatcharakom, T. Wasanapiarnpong and N. Jiraborvornpongsa	300
Development of Geopolymer Mortar from Metakaolin Blended with Agricultural and Industrial Wastes C. Tippayasam, S. Sutikulsombat, J. Paramee, C. Leonelli and D. Chaysawan	305
