Preface

Buoyancy Effects on Unsteady MHD Chemically Reacting and Rotating Fluid Flow Past a Plate in a Porous Medium R.P. Sharma, M.C. Raju, O.D. Makinde, P.R.K. Reddy and P.C. Reddy	1
Double Dispersion Effects on MHD Squeezing Flow of UCM Fluid through a Porous Medium N.N. Kumar, P.K. Kambhatla and O. Ojjela	10
Effects of Heat and Mass Flux Conditions on Magnetohydrodynamics Flow of Casson Fluid over a Curved Stretching Surface M.K. Murthy	29
Thermo-Solutal Chemically Reacting Micropolar Fluid Past a Permeable Stretching Porous Sheet M. Shamshuddin, T. Thumma and S.R. Mishra	42
Soret and Dufour's Effect on Non-Darcy Natural Convection Flow of Buongiorno Nanofluid over a Vertical Plate in a Porous Medium in the Presence of Viscous Dissipation A. Aghbari, H. Ali Agha, D. Sadaoui and S. Mouloud	60
Ohmic Heating of Magnetohydrodynamic Viscous Flow over a Continuous Moving Plate with Viscous Dissipation Buoyancy and Thermal Radiation K.S. Adegbie, D.J. Samuel and B. Ajayi	73
MHD Mixed Convective Flow of Casson Nanofluid over a Slender Rotating Disk with Source/Sink and Partial Slip Effects K.V. Prasad, H. Vaidya, O.D. Makinde and B.S. Setty	92
Numerical Study of Natural Convection in Vertical Cylindrical Annular Enclosure Filled with Cu-Water Nanofluid under Magnetic Fields M.A. Medebber, A. Aissa, M.E.A. Slimani and N. Retiel	123
Effects Wall Properties on Peristaltic Transport of Rabinowitsch Fluid through an Inclined Non-Uniform Slippery Tube G. Manjunatha, C. Rajashekhar, H. Vaidya, K.V. Prasad and O.D. Makinde	138
Effects of Heat Transfer on Peristaltic Transport of a Bingham Fluid through an Inclined Tube with Different Wave Forms H. Vaidya, C. Rajashekhar, G. Manjunatha and K.V. Prasad	158
Transient Heat and Reactant Consumption Investigation in a Cylindrical Pipe of Variable Thermal Conductivity R.S. Lebelo	178
Numerical Investigation and Thermal Transfer on a Wall Corrugated without and with Artificial Roughness R. Ferhat, A.Z. Dellil and M.K. Hamidou	189
Numerical Investigation of Coupled Surface Radiation and Natural Convection in a Triangular Shaped Roof (Gabel Roof) under Winter Conditions A.I. Amrani, N. Dihmani, S. Amraoui and A. Mezrhab	200
Numerical Study of Temperature Distributions and Solidification Pattern in the Weld Pool of Arc Welded Plate A. Yadav, A. Kumar, P. Gupta and D.K. Sinha	218
Distortion of Velocity Profiles of Water Flow with Heavy Molecular Weight Polymers L.C. Edomwonyi-Otu	228
Application of a New Design and Calculation Technology for Improving the Blading Section of the Engine with Turbine Supercharger A.V. Passar, D.V. Tymoshenko and E.V. Faleeva	239
