

Table of Contents

Preface

Third Body Concept and Wear Particle Behavior in Dry Friction Sliding Conditions J. Denape	1
Experimental Modeling of Wear Behavior of Filled Elastomer SBR under Dry Friction-Influence of Roughness R. Djeridi and M. Ould Ouali	13
Correlation between Acoustic Emission Signals and Friction Behavior under Different Sliding Configurations and Materials Pairs M. Yahiaoui, J.Y. Paris and J. Denape	21
Characterization of the Wear in the Turbojet Fins Z. Labed, D. Guechi and N. Brahim	29
Reliability Analysis of Buckling Limit State for Friction Stir Welded Aircraft Stiffened Panels O. Mouhat, A. Khamlichi and A. Limam	35
FSW of Aluminum Alloys: Effect of Operating Parameters on the Weld Quality S. El Mouhri, S. Ettaqi, A. Laazizi and S. Benayoun	43
