

Table of Contents

Preface, Committees

Chapter 1: Technologies in Food Processing and Pharmacology

Determination of Lead Desorption from <i>G. fisheri</i> Seaweed Using Edible Eluents by Voltammetry at the Hanging Mercury Drop Electrode C. Khamkaew and S. Manaboot	3
The Optimization of Ultrasonic Extraction for Benzoic Acid Determination in Curry Paste Samples by Using UV-Visible Spectrophotometry M.N. Thongsrinoon, P. Naun-Ong and Y. Ketyothin	9
A DFT Investigation of the Molecular Structure and UV Absorption Spectra of 2-Ethylhexyl 2-Hydroxybenzoate (Octisalate) and <i>Meta</i>-Substituted 2-Ethylhexyl 2-Hydroxybenzoate: Sunscreen Applications D.W. Punyain	15
Checking Adulteration of Aromatic, Amylose Content and Glutinous in Rice by Using Molecular Marker M.A. Boondech and S. Sajaw	22
Synthesis and Study of Naphthoquinones Derivatives M.C. Klinchan, R. Namngam, A. Sitsongkham and P. Chuawong	26
First Principles Study on the Stability and Electronic Structures of 7,8-Dichloro-4-Oxo-4H-Chromene-3-Carbaldehyde P.L. Toh, M. Meepripruk, L.S. Ang, S. Sulaiman and M.I. Mohamed-Ibrahim	31
Isolation of Bacteria from Clarifier Effluent of Sour Pork Industry Able to Produce 1,3-Propanediol from Crude Glycerol A.P.D.P. Pinyaphong and P. Sriburee	37
Influence of Organic Supplements on Growth and Development of <i>In Vitro</i> Shoots of <i>Bulbophyllum dhaninivatii</i> Seidenf A.P.D.A. Kongbangkerd, S. Watthana and K.O. Srimuang	42
Inclusion Complex of Plai Oil and β-Cyclodextrin A. Jimtaisong and N. Saewan	47
Effect of Chitosan and Alginate Concentration on Size and Bactericidal Activity against <i>Escherichia coli</i> of Chitosan/Alginate/Silver Nanoparticle Beads D.P. Mahasawat, K. Hlongkeaw and S. Charoenrit	54
Inhibition of Herpes Simplex Virus Type 2 <i>In Vitro</i> by Durian (<i>Durio zibethinus</i> Murray) Seed Coat Crude Extracts J. Nikomtat, P. Pinnak, K. Lapmak, P. Tammalungka, T.T. Thiankhanithikun and Y. Tragoolpua	60
Nutritional Value and Anthocyanins of Mulberry and Roselle Mixed Fruits Jam R. Wongchalat and D.R. Chatthongpisut	65
Effect of Different Cooking Method on Cooking Loss and Lipid Oxidation in Buffalo Meat P. Klinhom, J. Klinhom and S. Methawiwat	70
Nondestructive Determination of Maturity of the Monthong Durian by Mel-Frequency Cepstral Coefficients (MFCCs) and Neural Network P. Khunarsa, J. Mahawan, P. Nakjai and N. Onkhum	75
Preparation of <i>Acorus calamus</i> L. Microcapsules J. Ketwaraporn and A. Kongdee Aldred	82

Chapter 2: Technologies for Production of Renewable Energy

Electricity Production from Organic Wastes Fermentation by Microbial Fuel Cell Process P. Moonsri, W. Pongpian and P. Juantrong	91
Biodiesel Production from <i>Sterculia foetida</i> Oil by Using Solid Support Catalyst D.A. Vorasingha	98

Biogas Production from Anaerobic Co-Digestion of Food Waste Mixed with Domestic Wastewater S. Pongthornpruek and S. Watmuang	103
Social Impact Assessment of the Biogas Production through Biomass for Bansuanmiang School under the Smart School Project P. Thanarak	108
Comparative Analysis of Exergy and Efficiency for Stratified Thermal Storage Tank with Solar Flat Plate and Evacuated Tube Collectors S. Sukchai, Y. Mensin and W. Wansungnern	114

Chapter 3: Advanced Materials and Chemical Technologies

UV Irradiation Effect on the Surface KTaO₃ Crystals M.S. Suwanwong, A. Hutem, S. Kerdmee and P. Moonsri	121
Biocomposites Based on Thermoplastic Starch Reinforced with Recycled Paper Cellulose Fibers A. Wattanakornsiri, S. Tongnunui, T. Jamnongkan and C. Migliaresi	126
Effect of Curing Time and Temperature on the Structural Stability of Melamine Formaldehyde Polymers D.P. Katekomol	131
Production of Activated Carbon from Moldy Damaged Tamarind-Pod P. Moonsri, W. Pongpian and K. Moonsri	137
Bioesulfurization of Dibenzothiophene by a Newly Isolated <i>Agrobacterium tumefaciens</i> LSU20 D.I.B.W. Gunam, M. Iqbal, I.W. Arnata, N.S. Antara, A.A.M. Dewi Anggreni, Y. Setiyo and I.B.P. Gunadnya	143

Chapter 4: Computational Algorithms and Procedures, Signal and Data Processing

A Comparison of ORC-Compress Performance with Big Data Workload on Virtualization K. Rattanaopas, S. Kaewkeerat and Y. Chuchuen	153
Investigation of Z-R Relationships for Monsoon Seasons over Southern Thailand D.S. Kirtsaeng and P. Chantraket	159
Ultrasonic Signal Reconstruction Using Compressed Sensing R.J. Liou	165
Cross-Layer Optimization for Efficient Delivery of Scalable Video over WiMAX P.D.L. Wang, C.Y. Chang and A.P.D.J. Huang	171
A New Block Matching Algorithm for Motion Estimation C.M. Wu and A.P.D.J. Huang	178
Excited-State Energy Eigenvalue Evaluation of the Quantum Mechanical Potential $V(x)=\frac{1}{2}m\omega^2x^2+\mu x^3$ via Numerical Shooting Method M.N. Sriboonrueang, M.S. Suwanwong and A. Hutem	184
The Analytical Description of Projectile Motion of Cricket Ball in a Linear Resisting Medium the Storm Force S. Kuaykaew, S. Kerdmee, P. Banyenugam, P. Moonsri and A. Hutem	188
