

# Table of Contents

## Preface, Committees, Sponsors

## Chapter 1: Technologies of Forming and Joining

<b>Forming of Stringer Sheets with Solid Tools</b> S. Köhler, P. Groche, A. Baron and M. Schuchard	3
<b>Forming Behaviour of Micro-Structured Aluminium Sheets</b> T. Czotscher	11
<b>Determination of Influencing Factors on Ring Climbing in Radial-Axial Ring Rolling via Design of Experiments</b> S. Husmann and B. Kuhlenkötter	19
<b>Basic Numerical Analysis of a “Samanta” Based Forward Extrusion Process</b> C. Kiener, K. Andreas and M. Merklein	27
<b>Investigation of the Anisotropic Strain Rate Dependency of AA5182-O and DC04 for Different Stress States</b> M. Lenzen, E. Affronti, M. Rosenschon and M. Merklein	35
<b>Precise Prediction of Microstructural Properties with Minimal Experimental Effort for the Nickel-Base Alloy Inconel 718</b> A.M. Krämer, J. Lohmar and G. Hirt	43
<b>An Experimental-Numerical Method to Determine the Plastic Work Converted into Heat Applied on AHSS</b> C. Bonk, M. Vucetic, A. Bouguecha and B.A. Behrens	51
<b>Process-Integrated Projection Welding during Deep Drawing</b> M. Jalanesh, A. Miller, M. Hehmann, A. Spiekermeier, S. Hübner and B.A. Behrens	59
<b>Optimization of the Modified Yoshida Buckling Test to Investigate the Influence of Curvature</b> S. Schreyer and W. Volk	67
<b>Influence of the Preforming Material State in Common Tribological Tests</b> B. Zimmermann and M. Merklein	75
<b>New Approach for Closed Loop Control of Deep Drawing Process for a Control Intervention during Deep Drawing Stroke</b> M. Barthau and M. Liewald	83
<b>Prediction and Detection of Wear Mechanisms on an Industry-Oriented Hot Forging Die</b> L. Lippold, M. Kazhai, A. Bouguecha, M. Vucetic, C. Hübsch and K. Möhwald	91
<b>Investigation of the Wear Behavior for Not Alloyed and Alloyed Hot Forming Tools</b> F. Neubauer, K. Hofmann, K. Andreas and M. Merklein	99
<b>Development of a Laser Triangulation Gauge for High Precision Strip Thickness Control</b> S. Stockert, M. Wehr, J. Lohmar, G. Hirt and D. Abel	107
<b>Joining by Upset Bulging at Elevated Temperatures</b> A. Almohallami, M. Rusch, M. Vucetic, A. Bouguecha, M. Bambach and B.A. Behrens	115
<b>Spatters during Laser Deep Penetration Welding with a Bifocal Optic</b> J. Volpp, J. Srowig and F. Vollertsen	123

## Chapter 2: Cutting and Finishing Operations

<b>Electroless Plating of Micro Pencil Grinding Tools with 5-10 µm Sized cBN Grits</b> P. Arrabiyyeh, V. Raval, B. Kirsch, M. Bohley and J.C. Aurich	133
<b>Extended Calculation Model for Generating Gear Grinding Processes</b> F. Hübner, C. Löpenhaus, F. Klocke and C. Brecher	141
<b>Development of a Methodology for Analyzation of the Influence of Pitch Diameter Shift on the Generating Gear Grinding Process</b> M. Kampka, C. Löpenhaus and F. Klocke	149

<b>Geometrical Contact Zone Analysis of the Skive Hobbing Process</b> V. Böß, B. Denkena, M.A. Dittrich and S. Henning	157
<b>Further Development of a Cutting Force Model for Gear Hobbing</b> F. Kühn, C. Löpenhaus and F. Klocke	165
<b>Simulation Based Reduction of the Impact Load Occurring in the Moment of Cutting Edge Entrance in Order to Prolong Tool-Life</b> B. Matuschka, N. Boev, F. Zanger and V. Schulze	173
<b>Granulation of Extruded Plastic Wires: Influence of Tool Coating Properties and Tool Geometry on Cutting Forces and Tool Wear</b> M. Cardone, M. Putz, G. Schmidt, M. Dix, J. Friedrich and E. Stockmann	181
<b>Influence of Saw Blade Tension on the Stability of Sawing Processes</b> D. Albrecht and T. Stehle	189
<b>Production of Deep Bore Holes with Non-Circular Profiles</b> M. Fuß, H. Abrahams, B. Buse and D. Biermann	197
<b>Thermal Modelling of Drilling Steel</b> M. Gulpak and J. Sölter	205
<b>Simulation of Workpiece Vibrations in Spindle Direction during Milling</b> R. Hense, T. Siebrecht and P. Wiederkehr	213
<b>Quick Stop Device to Analyze the Chip Formation Mechanisms in Face Grinding</b> T. Götsching, A. Wippermann and T. Grove	221
<b>Influence of Dressing Tool Specification on Dressing Tool Wear for Generating Gear Grinding</b> M. Ophey, C. Löpenhaus and F. Klocke	228

### Chapter 3: Emerging Technologies

<b>Intrinsic Hybrid Composites for Lightweight Structures: New Process Chain Approaches</b> S.F. Koch, D. Barfuss, M. Bobbert, L. Groß, R. Grützner, M. Riemer, D. Stefaniak and Z. Wang	239
<b>Intrinsic Hybrid Composites for Lightweight Structures: Tooling Technologies</b> Z. Wang, M. Riemer, S.F. Koch, D. Barfuss, R. Grützner, F. Augenthaler and J. Schwennen	247
<b>Hybrid Metal-Composite Interfaces: Aspects of Design, Characterisation, and Simulation</b> R. Kießling, F. Hirsch, C. Dammann, M. Bobbert, M. Pohl and M. Kaestner	255
<b>New Approach for the Efficient Manufacturing of Sandwich Structures Based on Sheet Moulding Compounds</b> M. Fette, M. Reiß, J.P. Wulfsberg, N. Stoess and M. Hentschel	264
<b>Industrial Distortion Simulation of Fibre Reinforced Plastics – A Study on Finite Element Discretisation</b> C. Amann, S. Kreissl, H. Grass, J. Meinhardt and M. Merklein	272
<b>Characterization of the Sheared Edge Quality of Blanked Carbon Fibre Reinforced Plastics</b> A. Shirobokov, S. Kerchnawe, D. Trauth and P. Mattfeld	280
<b>Modelling the Stress Concentration in CFRP at Notches with a Thermally Influenced Cut Edge</b> J.W. Stock and J. Kerschreiter	288
<b>Minimum Quantity Dry Lubrication in Machining of CFRP</b> M. Schneider and R. Beckenlechner	296
<b>The Manufacturing of Electrodes: Key Process for the Future Success of Lithium-Ion Batteries</b> T. Günther, N. Billot, J. Schuster, J. Schnell, F.B. Spingler and H.A. Gasteiger	304
<b>Comparative Study on Pulsed Laser Welding Strategies for Contacting Lithium-Ion Batteries</b> P. Schmitz	312
<b>Active Wind Turbine Deicing-Systems Produced via Plasma-Coating-Technology</b> T. Braun, J. Weber, M. Brüstle, P. Wössner, J. Praß and J. Franke	320
<b>Systematic Process Chain Creation for CFRP Structures in Early Product Development Stages</b> M. Behr and C. Schmidt	328

## **Chapter 4: Machine Tools and Industrial Mechatronics**

<b>Simulating the Bearing Load due to Unbalance in Wood Machining Tools</b> M. Kimmelmann and T. Stehle	337
<b>Natural Frequency Analysis in the Workspace of a Six-Axis Industrial Robot Using Design of Experiments</b> P. Glogowski, M. Rieger, J.B. Sun and B. Kuhlenkötter	345
<b>Influence of Stamping Tool Fixation on Vibrations Using Specific Bolt Setups</b> D. Kraus, J. Hohmann, S. Wehnes and P. Groche	353
<b>A New Approach to Compensate Oscillations of Path-Linked Presses Caused by Inertial Forces</b> S. Hilscher, R. Krimm and B.A. Behrens	361
<b>Electromagnetic System to Improve the Manufacturing Accuracy at the Presence of Horizontal Process Forces</b> M. Gröne, D. Rosenbusch, R. Krimm and B.A. Behrens	369
<b>Investigation on the Dynamic Behaviour of an Ultrasonic-Levitation Magnetic Guiding System</b> J. Reiners and B. Denkena	377
<b>Empirical Analysis of the Effects of Parasitic Magnetic Stray Field on Force Output of Electromagnetic Actuators</b> A. Heyder, S. Steinbeck, M. Brela, A. Meyer, S. Abersfelder and J. Franke	384
<b>In Situ Topology Measurement of Micro Structured Surfaces with a Confocal Chromatic Sensor on a Desktop Sized Machine Tool</b> C. Müller, I.G. Reichenbach, M. Bohley and J.C. Aurich	392
<b>Support for Ingate Design by Analysing the Geometry of High Pressure Die Cast Geometries Using Dijkstra's Shortest Path Algorithm</b> F. Heilmeier, D. Goller, D. Opritescu, C. Thoma, F. Rieg and W. Volk	400
<b>Identification of Influence Parameters and Dependencies on the Illumination of Machine Vision Systems for Robots</b> S. Berger, P. Biehle, M. Villarroel, N. Brückmann, C. Richter and G. Reinhart	408

## **Chapter 5: Industrial Engineering**

<b>Concept for an Adapted BDI Architecture for Agent-Based Simulation of the Socio-Technical System in Manufacturing</b> K. Schwake and J.P. Wulfsberg	419
<b>Workforce Flexibility in Production Networks: Mid-Term Capacity Planning Illustrated by an Example of the Automotive Industry</b> S. Treber, E. Moser and G. Lanza	427
<b>Integrating Workers' Feedback into Continuous Information Flows: Enabling Lean Quality Assurance by Worker Information Systems</b> C. Fischer, M. Lušić, F. Faltus, R. Hornfeck and J. Franke	435
<b>Modeling the Sequence Dependent Lateness of a Single Workstation</b> S. Bertsch, C. Felix and P. Nyhuis	443
<b>A Data-Driven Simulation-Based Optimisation Approach for Adaptive Scheduling and Control of Dynamic Manufacturing Systems</b> M. Kück, J. Ehm, M. Freitag, E.M. Frazzon and R. Pimentel	449
<b>Evaluation of Strategies for the Coupling of Central Planning and Autonomous Control in Dynamic Job Shop Environments</b> S. Schukraft, S. Grundstein, M. Freitag and B. Scholz-Reiter	457
<b>Application and Validation of an Existing Industry 4.0 Guideline for the Development of Specific Recommendations for Implementation</b> S. Abersfelder, E. Bogner, A. Heyder and J. Franke	465
<b>Simulation-Based Evaluation of Quality Control Strategies in Global Manufacturing Networks</b> T. Arndt, C. Buderer, M. Hofmann and G. Lanza	473

<b>Ultra-Efficiency Factory - Framework and Holistic Approach to Increase and Evaluate Efficiency and Sustainability</b>	
T. Kuhlmann and A. Sauer	481
<b>Generation of Cellular Manufacturing Variants for the Potential Determination of Production Structures</b>	
C. Reuter, J.P. Prote, A. Gützlaff and M. Luckert	489
<b>Concept for Planning and Controlling of Multiple, Parallel Engineering Changes in Manufacturing Systems</b>	
D. Cichos, P. Kölsch and J.C. Aurich	497
<b>Methodology for the Development of Hardware Startups</b>	
T. Stock and G. Seliger	505
<b>Methodology for the Suitability Validation of a Highly Iterative Product Development Approach for Individual Segments of an Overall Development Task</b>	
F. Diels, M. Riesener and G. Schuh	513
<b>Analyzing Modular Platform Potential for Complex Product Portfolios of Manufacturing Companies</b>	
M. Riesener, C. Ortlieb and G. Schuh	521
<b>Concept for Real-Time Wireless Networking of Mobile CPS Based on LTE</b>	
P. Neher and A. Lechler	529
<b>Virtual Reality for Industrial Application - The Influence of Presence and its Relation to Usability and User Experience</b>	
J. Brade, M. Lorenz, P. Klimant, F. Pürzel and M. Putz	537
