

Table of Contents

Preface

Spectrophotometric Study of Complex Compounds of Polyacrylate and Polymethacrylate of Guanidine, and also of Composites on their Basis with Fe (II) Ions Z.Y. Isupova, A.A. Zhansitov, S.Y. Khashirova and S.Y. Khashirova	1
Study of the Geometric Characteristics of Carbon Fiber Fillers on the Properties of Polyphenylene Sulfone A.L. Slonov, A.A. Zhansitov, E.V. Rzhevskaya, D.M. Khakulova, E.V. Khakyasheva and S.Y. Khashirova	5
Investigation of the Influence of Fillers of Various Nature on the Properties of Polyether Sulfone and Determination of the Possibility of Using Composites on their Basis in 3D-Printing A.L. Slonov, A.A. Zhansitov, I.V. Musov, E.V. Khakyasheva, L.K. Kuchmenova and S.Y. Khashirova	11
Development of Composite Materials for 3d Printing on the Basis of Polyphenylenesulfone A.L. Slonov, A.A. Zhansitov, D.M. Khakulova, Z.I. Kurdanova, I.V. Musov and S.Y. Khashirova	15
Mechanical Properties of Samples of Polyphenylene Sulfone Obtained by the 3D-Printing Method A.L. Slonov, A.A. Khashirov, A.A. Zhansitov, E.V. Rzhevskaya, I.V. Musov and S.Y. Khashirova	21
Methods for the Synthesis of Polyetherketone K.T. Shakhmurzova, Z.I. Kurdanova, A.E. Baikaziev, K.K. Teunova, A.A. Zhansitov and S.Y. Khashirova	27
Thermal Stability of Polyetherketones A.S. Shabaev, A.A. Zhansitov and S.Y. Khashirova	31
Investigation of the Crystallization of Polyetherketones by the Differential Scanning Calorimetry Method A.A. Zhansitov, A.L. Slonov, A.E. Baikaziev, M.M. Murzakanova and S.Y. Khashirova	36
Study of the Effect of Processing Cycles on the Thermophysical Properties of Polyether Ether Ketone A.A. Zhansitov, A.S. Shabaev, K.T. Shakhmurzova, Z.I. Kurdanova, R.M. Mamkhegov and S.Y. Khashirova	40
Acrylate and Methacrylate Guanidine-Ionic Liquids for Dissolution of Cellulose S.Y. Khashirova, A.A. Zhansitov, Z.Y. Isupova, S.A. Elcheparova and S.Y. Khashirova	45
A Disperse Nanofiller Aggregation in Polymer Nanocomposites: Description within the Framework of Irreversible Aggregation Model P.G. Rizvanova, G.M. Magomedov and G.V. Kozlov	49
A Carbon Nanotubes Aggregation in Polymer Nanocomposites L.B. Atlukhanova and G.V. Kozlov	55
Polyoximates of Various Structures as Modifying Additives in Polyalkyleneterephthalates Y.I. Musayev, E.B. Musaeva and V.A. Kvashin	61
Modified Organoclay and Study of its Structures M.B. Begieva, F.M. Nyrova, Z.I. Tsoroeva, Y.K. Gudova, M.K. Begieva, A.V. Blyashev and D.B. Amshokova	66
Aromatic Polyester Ketones and Methods of their Microcapsulation A.A. Beev, S.Y. Khashirova and D.A. Beeva	70
Capsulation of Polyesters and Methods of its Carrying Out A.A. Beev, S.Y. Khashirova and D.A. Beeva	75
Influence Study of Plasticizer Compatibility on Strength Properties of Ethylene-Vinyl Acetate A.N. Volotskoy, Y.V. Yurkin and V.V. Avdonin	79
Increasing the Work of the Diamond Grinding Circuits for the Account of Directed Changes in the Heat Conductivity of a Polymer Matrix Z.N. Deunezhev	84
Bio-Polyesters V.I. Kernitskiy	89

A New Approach to the Production of Bioresorbable Suture Materials with Biological Activity M.A. Khavpachev, E.S. Trofimchuk and N.I. Nikonorova	94
Modification of the Collagen Tissue of the Bioprosthesis of Heart Valves in a Solution of Carbonic Acid: Effect of Pressure on Adsorption of Chitosan and the Structure of the Tissue I.S. Chaschin, N.P. Bakuleva, M.G. Chernysheva, G.A. Badun, N.M. Anuchina, S.S. Abramchuk and L.N. Nikitin	100
Study of Influence of Character Aromatic Bisphenol Oligoketones Based on Physical and Mechanical High Density Polyethylene A.K. Shaov, A. Kharaev and T.A. Borukaev	108
The Synthesis and Properties of Halogencontaining Copolycarbonates R. Bazheva, A. Kharaev, A.Z. Bazhev, Z. Inarkieva and I.T. Bidov	114
Determination of the Stress-Strain State of a Rotating Polymer Body S.V. Litvinov, L.I. Trush and S.B. Yazyev	121
Investigation of the Influence of the Catalyst on the Kinetics of the Synthesis of Polyesters PET and PBT R.M. Mamkhegov, M.M. Murzakanova, A.T. Tsurova and S.Y. Khashirova	127
Oxidative Polymerization of 3-Amino,2',-(3')-Nitrodiphenylazomethine T.A. Borukaev, A.K. Malamatov, M.K. Vindizheva, A.V. Orlov and S.G. Kiseleva	134
Thermostability and Mechanical Properties of PVC-Plastic/Molybdenum Compounds T.A. Borukaev, A.K. Shaov, I.A. Shogenova, M.A. Pshitsukova and M.S. Pshikhacheva	140
Calculation of Three-Layer Panels with Polyurethane Foam Filler Taking into Account the Rheological Properties of the Middle Layer B.M. Yazyev, A.S. Chepurnenko and A.A. Savchenko	144
Application of Model of the Viscoelastic Body and the Fractal Analysis for the Description of Process of Flowability of Polymeric Nanocomposites Z.M. Zhirikova and V.Z. Aloeov	150
Synthesis of 2-Hydroxy-3-(Methyl-cyclo-hexenyl-Isopropyl)-5-Methylbenzyl-amino-ethylnonyl Imidazolines - The Thermostabilizers to Polypropylene Z.Z. Aghamaliyev, M.V. Naghiyeva and C.K. Rasulov	155
Relaxation Properties of Nanocomposites Based on Polyamide 6 and Organoclays G.M. Magomedov, Z.L. Beslaneeva, A.C. Aigubova and A.T. Tsurova	160
Deformation-Strength Properties of Polyether Ketones L. Asueva, M.A. Nasurova, Z.S. Khasbulatova and G.B. Shustov	164
