Preface

Numerical Simulation of Multiple Scattering by Hidden Cracks under the Incidence of Elastic Waves

A. Rodríguez-Castellanos and F.J. Sánchez-Sesma 1

Fatigue Crack Growth in SAW Welded Joints of API 5L Steel Pipe in the Short Radial Direction

D. Angeles Herrera and J.L. González Velázquez 9

Transferability of the Gurson Damage Model Parameters with Charpy and Tensile Tests with Different Constrain Level

R. Cuamatzi Melendez and J.R. Yates 19

Mechanics of Randomly Folded Thin Materials

O. Susarrey Huerta, M. Mendoza Nuñez, P.A. Tamayo Meza and A.S. Balankin 33

Effect of Mixed Mode Loading Induced by Asymmetrical Stress upon Crack Initiation from Corrosion Pits

N. Acuña-González, J. González-Sánchez, E. Contreras and I. Sauceda 39

Evaluation of Brittle Layers Obtained by Boriding on AISI H13 Steels

N. López-Perrusquia, I. Campos-Silva, J. Martínez-Trinidad, A. Avilés, E. Alvárez-Castañeda and S. Juárez-Torres 47

Short Crack Propagation Model Applied to Shot Peened Aluminium Alloys

J. Solis, J. Oseguera-Peña and I. Betancourt 53

Effect of Boriding on the Mechanical Properties of AISI 1045 Steel

G. Rodríguez-Castro, I. Campos-Silva, J. Martínez-Trinidad, U. Figueroa-López, D. Meléndez-Morales and J. Vargas-Hernández 63

Verification of the Ultrasonic Qualification for Structural Integrity of Partially Concrete Embedded Steel Elements

J.A. López, F.J. Carrión, J.A. Quintana, D. Samayoa, M.G. Lomelí and P.R. Orozco 69

Rotating Bending Fatigue Tests on Aluminum Alloy AISI-SAE 6061-T6 at High Speed (150 Hz), and Close to Elastic Limit

G. Domínguez Almaraz, E. Tapia Silva, M. Guzmán Tapia and J. Villalón López 79

Residual Strength and Fracture Path for Drilled Epoxy-Glass Composites

M. Torres, J.L. Gonzalez and H. Hernandez 89
